Technical Skills

Programming Languages: Java, JavaScript (ES6/ES7), SQL, JSON

Frontend Technologies: React.js, Redux, Axios, HTML5, CSS3, Responsive Design, DOM Manipulation, Jest, RTL

Backend Technologies: Spring Boot, REST APIs, Microservices, Distributed Systems

Databases: Oracle SQL, MongoDB

Cloud & DevOps: AWS, Git, GitHub

AI-Assisted Development Tools: Cursor IDE, Claude AI

Development Practices: Agile Methodology, SDLC, Unit & Integration Testing, Debugging, Code Reviews

Professional Experience

Sri Tek Inc., McKinney, TX, USA

July 2023 – February 2025

Software Developer

- Developed and maintained enterprise web applications using Java, Spring Boot, React.js, and Oracle SQL.
- Designed and implemented RESTful APIs to support frontend applications and facilitate seamless integration between distributed systems.
- Built reusable React components and improved application responsiveness, resulting in enhanced user experience and maintainability.
- Collaborated with cross-functional teams including business analysts, QA engineers, and stakeholders to gather requirements and deliver scalable solutions.
- Optimized complex SQL queries and database operations, improving application performance and reducing response times.
- Participated in Agile ceremonies including sprint planning, daily standups, backlog grooming, and retrospectives.
- Integrated frontend applications with backend microservices using Axios and REST APIs.
- Performed code reviews, troubleshooting, bug fixes, and production support activities to ensure application stability and reliability.
- Utilized Git for source code management, version control, and collaborative development workflows.
- Leveraged AI-assisted development tools such as Cursor IDE and Claude AI to accelerate code development, streamline debugging, improve code quality, and enhance overall developer productivity.
- Contributed to application deployment and cloud-based infrastructure support using AWS services.

Projects

E-Grocery E-Commerce Platform

- Designed and developed a full-stack e-commerce web application enabling users to browse products, manage shopping carts, and place online orders.
- Built a responsive frontend using React.js, Redux, JavaScript (ES6), HTML, and CSS.
- Developed backend services using Spring Boot and REST APIs to manage products, users, and order processing.
- Implemented secure user authentication and authorization mechanisms.
- Designed relational database schemas and optimized SQL queries for efficient data retrieval.
- Integrated API communication using Axios and implemented state management using Redux.
- Applied component-based architecture to improve scalability, maintainability, and code reusability.

Education

Master of Science in Computer and Information Systems

2023

University of North Texas, Denton, Texas, USA

Bachelor of Technology in Computer Science and Engineering

2020

KL University, Guntur, Andhra Pradesh, India

Certifications

- **Meta Front-End Developer Professional Certificate**
coursera.org/verify/professional-cert/K4M3X1QB3AMH
- **Meta React Native Specialization**
coursera.org/verify/specialization/2QHM081G1Z98
- **GitHub Professional Certificate**
LinkedIn Learning Certification
